competency made easy

Comaea gives you a quick, easy and secure start and our apps allow you to select functionality that suit your needs and size of your organisation. Comaea gives instant over-view of your people for better informed decisions.

competency and skills assessment

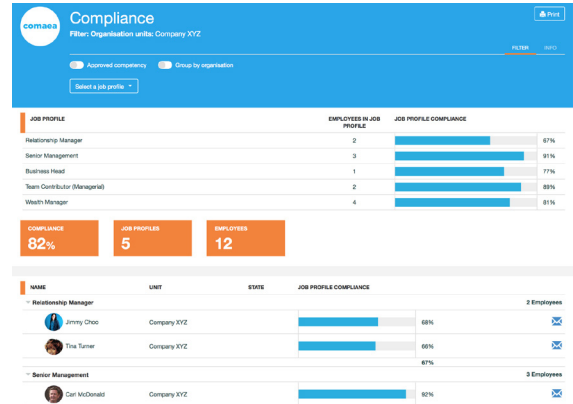

Our clean-cut user interface makes it easy for people at all level to do a competency and skills assessment.

Employees, managers, HR/TM/HCM and executive management see results realtime in areas of strength, gaps and available competency and how it matches jobs and strategy.

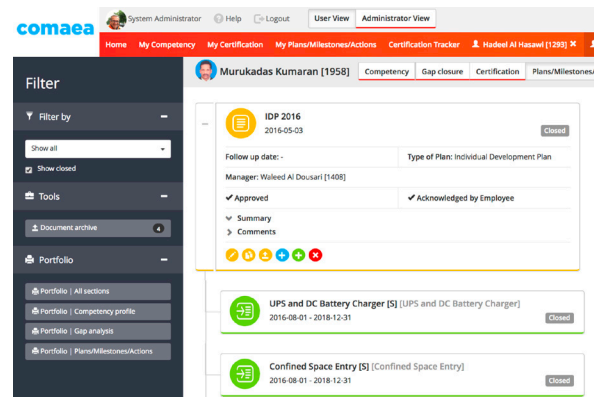

dashboards and reporting

Designed with our customers in mind, our realtime dashboards and reporting functions bring forth the most relevant management information, customisable based on organisational needs.

gap closure and learning solutions

Identified gaps and development needs are easily found and can be addressed in Individual Development Plans (IDP) created for employees. Behind this is Comaea Learning Catalogue with learning interventions such as e-learning, classroom training, on-job training and much more.

competency libraries

We help you standardise and quality assure your existing job and competency framework, and align these to your business strategy. Be ahead of the competition by using Comaea's extensive libraries of over 5,000 competencies and build your future workforce.

We also accommodate international standards defined by governing bodies and associations.

Comaea (Competency Made Easy) is a cloud-based software platform for competency management, people development and assurance.

Comaea is one of the easiest to use yet powerful and flexible systems, and links to other systems, such as SAP and ORACLE to provide integrated solutions.

Comaea links the people strategy with the organisational strategy by enabling organisations to understand their workforce capability and deliver their strategic goals.

Think Competency | Think Comaea

Our vision is to be the world's best **competency management system** with the **widest connectivity** and offering comprehensive **industry and profession based solutions**
