To Whom it may concern,

RE: Reference and recommendation of Roubler

Please take this letter as Fitness and Lifestyle Groups (Barry's Bootcamp Singapore parent company) official recommendation of the Roubler product.

We have just recently branched into the Singapore market from Australia and needed a payroll, time and attendance and HRIS solution. In Australia we use Workforce Ready, Kronos and ADP and unfortunately these solutions were unable to support us as we move into the Singapore market.

When we came across Mazar's and Roubler, we were quickly shown how great the product and offering is. We were offered quick turnaround times and amazing customer service from their team. Barry's is one of our luxury brands and simplicity of systems is always appreciated by them. The feedback received from our team on the ground has been exceptional since having a walk through of the Robuler solution.

We look forward to continue working with Roubler and Mazars as we bridge into Asia Pacific.

If anyone would like to contact me directly for any further clarification, please do not hesitate via my email below.

Kind regards,

Isabella Pisasale
