

activ8 – ePay Module

Product Overview

activ8 - ePay Module

The activ8 ePay module enhances the employee user experience by providing employees secure access to their payslips and year-end statements throughout their employment period.

Accessible

ePay provides employees and administrators with secure online access to Payslips, Year End Statements and Statement of Earnings documents from any location in the world. All that is required is an internet connection with bandwidth requirements being minimal.

Flexible

Use the internet browser on any PC, laptop, tablet or smartphone. Internet Explorer, Chrome, Firefox and Safari are supported so no need for additional components on your PC or add-ons in your browser.

Convenient

All documents in ePay are available in PDF format giving the user the freedom to download, store or print the documents as and when they need them.

ePay Key Features

Security	Encryption on all Data	As with all activ8 modules ePay utilises AES-256 encryption for all traffic ensuring your details and files are secure during transfer
	User Access Control	All documents are uploaded to individual employee ePay accounts. Only the employee or the designated Super Admin administrator can access documents in ePay
	Regular Testing	The ePay module is tested for security by independent security consultants on a regular basis
	Administrator Access	Designated administrators can access ePay documents via activ8's Super Admin module if required
Accessibility	ePay is Accessible on any Standard Browser	ePay can be accessed on any internet connected device which supports any of the following browsers: <ul style="list-style-type: none"> • Internet Explorer • Google Chrome • Mozilla Firefox • Safari
	ePay is Accessible on any Device	Accessible using a PC, laptop, tablet or smartphone with no additional components or apps to install, ePay just needs a browser
	ePay is Available, Anywhere, at Anytime	ePay is a web application available via the internet allowing access at all times regardless of user location
	Ease of Use	ePay has been specifically designed to make document access as simple as possible
Intuitive	Documents Segregation by Type	Documents in ePay are segregated with payslips being separated from annual statements for ease of access by the employee

	Filter Documents by Date	The filters allow documents to be located by year and all historical documents can be accessed by the employee
	Usability	Payslips and annual statements can be accessed at the push of a button with all documents stored in PDF format
	Most Recent Shown First	Documents are listed in reverse chronological order with the most recent document at the top of screen, making it easy for the employee to locate their most recent payslip
Configurable	Customised ePay Landing Page	As with all activ8 modules, ePay includes a module specific Landing Page that can be tailored to suit the customer with country specific versions being available
	Multiple Document Types	ePay has been designed to cater for multiple document types. Payslips, Annual Statements or even a Statement of Earnings report are all catered for, providing employees with access to all their documents in one location
